## Automotive Manufacturing Program

### AT FIAT CHRYSLER AUTOMOBILES

#### Fiat Chrysler Automobiles' Automotive Manufacturing Program (AMP) for Macomb Community College students.

*Combine real-life work skills with education for new career opportunities in automotive manufacturing.*

Macomb Community College, in partnership with Fiat Chrysler Automobiles (FCA), is offering a program providing students the opportunity to develop leadership, problem-solving and communication skills while earning an associate degree.

Students participate in a paid co-op program, working one day per week as a production supervisor at an FCA manufacturing facility in the Greater Detroit area. Classes begin FALL 2019.

#### Learn more about the Automotive Manufacturing Program (AMP) at a FREE information session:

**Dates & Times:** Monday, April 29 • 10–11am
